

PROTOCOLS TO FOLLOW IF FEELING UNWELL - UPDATED

Each day, all members of the SMA community are required to self-screen for symptoms before coming to school. With the presence of COVID-19 variants of concern, Manitoba Health has implemented additional protocols if feeling unwell. *“The chief provincial public health officer reminds Manitobans to self-isolate immediately at the onset of possible COVID-19 symptoms, no matter how mild...Public health officials are also advising that if anyone is symptomatic, or has a household member who is symptomatic, the entire household needs to self-isolate pending COVID-19 test results.”* Please use the following chart to guide your decisions:
